

# ALLERGY AND DIETARY PARTY MENU

Our kitchen may contain cross contaminates of these allergens.

Our fryers contain cross contamination of all allergens.

If this is an issue and we are unable to provide a safe meal for the guest, they are able to bring a lunch box with the meal suitable for the guest. It must be labelled with the GUESTS NAME on it.

All dietary change meals will be served in a separate box for the individual child. If the entire party requires the dietary change - it'll be served on trays by the party host.
